**Subject:** Raw data packages (for possible external review) - Set 1

Attached are full raw data packages for Dimock. I know that at this time no one is planning external review of the data, but we always prepare data packages and generally forward them for review, so please keep them or forward to the appropriate people.

I will be sending these one of two at a time because of their size. I will number the transmissions so let me know if you do not receive a set.
